

# IJENEBE FRANCIS

## OBJECTIVE

To obtain an entry-level mobile developer position at a respected organization and utilize the knowledge gotten through projects and communication skills gotten through freelancing.

## EXPERIENCE

- **Isend**

*5-1-2023 - 10-6-2023*

Flutter developer

Worked in a team with product managers, and designer, learning about AGILE and how to work with figma.

As the Mobile developer, it was my job to create an mvp app for android and ios for the company.

## PROJECTS

- **Isend Logistics**

Built a mobile app on Android and ios for Isend, a Nigerian logistics startup. I learnt how to create stunning UI, Google geolocation, API consuming and lots more.

- **Firemood**

A dating app, I learnt how to implement chat features with Cloud firestore ( Firebase).

- **Indre Ro**

A Norwegian meditation app, I learnt how to play audios, videos, worked with firebase for the first time.

## EDUCATION

- **Federal University of Technology Akure**

*2025*

Physics Electronics
